DOCTORAL NETWORKS

Vizează formarea inițială a cercetătorilor și a candidaților la doctorat din statele membre și din țările associate, prin intermediul programelor de formare realizate de parteneriate între universități, institute de cercetare, întreprinderi, IMM-uri și alți agenți socioeconomici din diferite țări din Europa și din afara acesteia.

DOCTORAL NETWORKS

- ✓ Formare iniţială şi studii de doctorat pentru cercetătorii debutanţi (fără titlu de doctor!), oferită de reţele internaţionale de organizaţii din sectoarele academice şi non-academice, inclusiv ÎMM;
- ✓ Acțiune dedicată exclusiv cercetatorilor debutanți
- ✓ Focusare pe proiecte individuale / personalizate
- ✓ Interacțiune semnificativă cu sectorul non-academic
- ✓ Dezvoltarea spiritului antreprenorial și adaptare la nevoile pieței muncii. Formarea aptitudinilor transferabile, de ex. comunicare, management de cercetare, IP, etică, mobilizare socială, antreprenoriat

SIGNIFICANT CHANGES

- Individual fellowships, which fund training and mobility of researchers of any nationality, are now called postdoctoral fellowships, and are only available to researchers with up to eight years of post-PhD research experience. The Commission hopes this restriction will help reduce the number of applications and boost success rates, which currently range between 11 to 18%.
- To further boost success rates, the Commission will limit resubmissions.
 Applicants will not be allowed to resubmit proposals the following year if
 they fail to get a score of 70/100 for their postdoctoral fellowship
 applications, or 80/100 for the doctoral networks grants (formerly called
 innovative training networks).
- To help some of the unsuccessful candidates, the Commission is introducing a Seal of Excellence for postdoctoral fellowships, to be awarded to projects that meet the necessary criteria but do not get funding due to a high number of applications. The aim is to help projects secure alternative funding from member states. "In principle, you take advantage of the high-quality evaluation of the Commission.

The Commission awarded Seal of Excellence certificates to applicants for MSCA Individual Fellowships in 2020

With a record 11,300-plus proposals received for the 2020 Individual Fellowships call, the Marie Skłodowska-Curie Actions are highly competitive. Of this number, 1,630 were funded.

High quality applications

The MSCA Seal of Excellence (SoE) is a quality label awarded to applicants for MSCA Individual Fellowships (IF) who achieved a high score in their applications but ultimately did not get funding because of budget constraints.

By affirming proposals scoring 85% or more, the SoE underlines the value of these projects. People proposing these projects may then use their SoE recognition to help find alternative funding. The Horizon 2020 programme awarded the Seal of Excellence to over 11,900 IF proposals.

Thanks to SoE, other funding bodies are in a position to leverage the Horizon 2020 evaluation process if they wish. A proposal which has earned the MSCA SoE may be supported by national, regional and university-level schemes.

Germany and the Netherlands recently set up support schemes for SoE recipients, bringing to 12 the total number of countries with such schemes.
